

Contenitori serie MB / Containers line MB / Conteneurs série MB

Contenitori multiuso. Realizzati in polipropilene atossico e quindi adatti al trasporto di alimenti. I contenitori vuoti sono impilabili. Adatti per la movimentazione con utilizzo di scaffalature dinamiche e nastri convogliatori. Il coperchio può essere chiuso con sigilli di sicurezza o piombato.

Multi-use containers made of non-toxic polypropylene and therefore fit for food transport. Empty containers can be piled up. They can be used for displacing by means of dynamic shelving and conveying band. The lid can be either closed with security seal or sealed with lead.

Conteneurs multi- usages. Réalisés en polypropylène atoxique et appropriés pour le transport des aliments. Les conteneurs vides sont superposables. Peuvent être facilement déplacés grâce à l'utilisation des étagères dynamiques et bandes transporteuses. Le couvercle peut être fermé avec cachet de sécurité ou plombés.
